

Dear fellow citizens,

New siren systems were installed in the community of Brechen with the aim of being able to effectively warn the population through appropriate placement and orientation within the community.

The purpose of this brochure is to inform you about siren signals and their meaning. Please read this brochure carefully and keep it.

The occasions we warn you about are very different. Please therefore follow the instructions in this booklet.

I recommend that you also install the warning app "NINA" from the Federal Office for Civil Protection and Disaster Assistance and the official warning and information app of the state of Hessen "hesenWARN" on your mobile phone.

You are also welcome to find out more about the app from the municipality of Brechen.

This means you are always fully informed about possible damage situations.

Your mayor

Frank Groos

Important emergency numbers

Fire department rescue service: **112**

Police: **110**

Medical on-call service: **116 117**

Important information for the population

What is being warned about?

Reasons for warning can be:

Major fires, natural events, releases of hazardous substances that affect a larger group of people in your area.

Warning

One-minute, rising and falling howling tone

Keep Calm!

Visit an apartment or building!

Close windows and doors!

Switch off ventilation and air conditioning devices!

Turn on the radio (HR, RadioFFH)!

Pay attention to loudspeaker announcements!

ONLY dial 112 in an emergency or in acute danger!

Alerting the fire department

Continuous tone for one minute, interrupted twice

Be considerate of emergency vehicles!

All clear

One minute continuous tone

here is no longer any danger - the warning has been lifted

Telecommunications failure

Even large-scale outages in the area of mobile communications or landlines are dealt with as quickly as possible by the network operators Fixed.

If the telecommunications outage continues for a longer period of time, the fire stations will be manned so that help can be requested in emergencies.

Also inform your neighbors or people in need around you.

Drinking water fault number

0 64 38 / 91 29-660

Disruption to the drinking water supply

If the drinking water supply fails, please inform the municipal administration by calling 06438/9129-660.

In the event of major disruptions, we will also inform you via the municipality's homepage or through loudspeaker announcements

Power failure

Large-scale power outages are usually resolved within a few hours.

If the power outage continues for a longer period of time, the fire stations will be manned so that help can be requested in emergencies.

Also inform your neighbors or people in need around you.

Citizen telephone

0 64 38 / 9 12 99 99

Extraordinary events

In the event of major damage or other extraordinary events, the municipal administration will set up a citizen hotline.

You can then receive further information by calling 0 64 38 / 9 12 99 99.
